Technical Skills

Languages: **Ruby, TypeScript**/ES6, Python, Java, Bash, SQL, HTML5/CSS3
Frameworks: **Ruby on Rails**, **React**/React Native, Node.js/Express, Django, Android, ScikitLearn, J2EE
Other: **AWS/GCP**, **Deck.gl**/Geospatial, **PostgreSQL**/MySQL/MongoDB/Redis, Arduino/RasPi

Some Work History

Ruby on Rails Backend Developer – Procore   *July 2021 – September 2023*

- Improved heavy db usage calculation by 73%. Planned and executed perfect migration to it
- Implemented complex multi-tier line item pre-population. Hours of work saved by clients

Frontend React Developer – EMDYN   August *2020 – April 2021*

- Improved, maintained, and fixed Deck.gl-based, security geodata analysis web app
- Upgraded data loading performance, added complex data-vis options, interactivity and authentication. Setup code infrastructure for client-based data storage

Fullstack Angular/Node/.Net Developer – Automind   *October 2019 – August 2020*

- Led the integration of outsourced oil-rig equipment, infrastructure, and personnel management solution. Installed and proposed internal knowledge base usage
- Brought the solution to ready state, added missing functionality, improved code base legibility, and organization, planned and executed client deployments

Lead RoR/Android/React Developer – MW8 Soluções   *October 2014 – August 2019*

- Led a team that designed and built three country-wide Android/React Native B2C POS apps and accompanying RoR/Node/React API and Dashboard web apps
- Planned and managed AWS/GCP infrastructure for production and test environments

Some Personal Projects

SQRL On Rails   github:/sqrl_on_rails   *Work In Progress*

- Building a **RoR** gem to seamlessly deliver the new authentication system, SQRL
- Broad-reaching but simple-to-use, engine that accomplishes one job elegantly

React Native MediaAwesome   github:/rn-mediawesome   *April 2017*

- **React-Native** playlist-based media player component I built due to poor alternatives
- Achieves seamless media playback on under spec'd hardware

Education

- **Universidade Salvador** – Information Systems B.S.   · Dropped out at 7th sem.
- Studying cyber security and seeking CEH certification   · Ongoing
- Podcasts, courses, blogs, videos, and general content about dev and tech   · Ongoing

Idioms

- English – Fluent – IELTS 7.5
- Portuguese – Native

Interest and hobbies

Automation, cyber security, text localization, AI research, electronics, space, music, games, humanity's future
